Journal of Hydrology

Contents

Publisher's Note v

Relationships between dynamic response characteristics and physical descriptors of catchments in England and Wales
C.E.M. Sefton and S.M. Howarth 1

Partitioning the land surface water simulated by a land–air surface scheme
D.T. Mihailović, B. Rajković, B. Lalić, D. Jović and L. Dekić 17

Characterisation of the hydrology of an estaurine wetland
C.E. Hughes, P. Binning and G.R. Willgoose 34

Hydrological behaviour of first generation coppiced bluegum plantations in the Nilgiri sub-watersheds
V.N. Sharda, P. Samraj, J.S. Samra and V. Lakshmanan 50

Momentum roughness and view-angle dependent heat roughness at a Southern Great Plains test-site
J.M. Jacobs and W. Brutsaert 61

Monte Carlo assessment of parameter uncertainty in conceptual catchment models: the Metropolis algorithm
G. Kuczera and E. Parent 69

Estimating runoff–recharge in the Southern Lincolnshire Limestone catchment, UK
C.G. Bradbury and K.R. Rushton 86

Hydraulics of a partially penetrating well: solution to a mixed-type boundary value problem via dual integral equations
G. Cassiani and Z.J. Kabala 100

Estimating direct groundwater recharge using a simple water balance model – sensitivity to land surface parameters
J.W. Finch 112

Nitrous oxide production and consumption in British limestone aquifers
I.H. Mühlherr and K.M. Hiscock 126

Matrix hydrogeological properties of Devonian carbonate rocks of Olkusz (Southern Poland)
J. Motyka, A. Pulido-Bosch, S. Borczak and J. Gisbert 140

Noble gases, stable isotopes, and radiocarbon as tracers of flow in the Dakota aquifer, Colorado and Kansas
J.F. Clark, M. Lee Davisson, G. Bryant Hudson and P. Allen Macfarlane 151

A statistical method for evaluating the effects of antecedent rainfall upon runoff: applications to the coastal plain of Georgia
S. Rose 168

Changes in the isotopic and chemical composition of ground water resulting from a recharge pulse from a sinking stream
B.G. Katz, J.S. Catches, T.D. Bullen and R.L. Michel 178

Drip flow variations under a stalactite of the Père Noël cave (Belgium). Evidence of seasonal variations and air pressure constraints
D. Genty and G. Deflandre 208

Nitrogen isotope hydrochemistry and denitrification within the Chalk aquifer system of north Norfolk, UK
N.A. Feast, K.M. Hiscock, P.F. Dennis and J.N. Andrews 233

On the scale problem in hydrological modelling
S. Bergström and L.P. Graham 253

Technical Note

Geometric analysis of surface runoff and the computation order of unit elements in distributed hydrological models
O.L. Palacios-Vélez, W. Gandoy-Bernasconi and B. Cuevas-Renaud 266

Book Reviews

Applied Fluvial Geomorphology for River Engineering and Management by Olav Slaymaker 275

Muddy Waters: Uncertainty Issues in Modelling the Influence of Bed Sediments on Water Composition by Wei Zang and M.B. Beck 276

The Geochemistry of Natural Waters by Colin Neal 277
